FORM 12-B Sample Quality Improvement Goals

Center Name: The Sample Center

Subscale:	ECERS-R Item # and Name	ITERS-R Item # and Name	Current Score:	Goal Score:
Space and Furnishings	8. Gross motor equipment	16. Active Physical Space	1	3

List all of the indicators needed to meet the goal score:	Describe all of the activities you will use to meet the goal:
ECERS 3.1 3.2 3.3 ITERS 3.1 3.2 3.3	1. We will make a space on our preschool playground for riding toys and buy 3 trikes and 2 wagons. We will also buy a variety of gross motor equipment: a. Hop a long balls b. Hoops c. tunnels d. preschool sized basketball hoop 2. On infant/toddler/two year old playground we will add a low stair and ramp for climbing. We already have enough portable equipment; we just need something for the two year olds to climb on. 3. We will adjust our daily schedules to make sure that children are outside on the playgrounds for at least one hour each day (30 minutes each morning and afternoon). 4. When the weather or air is too bad to go outside, we will have one hour of gross motor activity inside (30 minutes morning and afternoon). We can use some of the portable outdoor equipment inside, plus we have a parachute and bean bags for inside. We like to dance so will do that in addition to other games (like duck, duck, goose). 5. Infants and toddlers will be free to move around at all times; children will not be in swings or exer-saucers more than 15 minutes per day. 6. Infants will play outside daily even when it is cold unless there is snow on the ground.
