*Statewide employment data is from the Local Area Unemployment Statistics Program (LAUS), and Metro Employment is from the Current Employment Statistics Program (CES).

** County (sub-state) data is from the Local Area Unemployment Statistics Program (LAUS). Utah publishes a one page summary of county unemployment rates on its web page.

Note: Utah has moved its usual publication dates from the third Tuesday to the third Thursday of the month, except during benchmark periods. This is more consistent with the national Regional and State release dates, which usually occur on Fridays. Utah is unable to publish on Friday since the Governor ordered most state offices closed as a cost saving measure. Utah works four 10-hour days per week, Monday through Thursday.
