

ABOUT REPORT

Report Name: **Utah Public Assistance Recipients Dashboard**
System: eREP—DWS Eligibility Services Division
Report Type: Public / Tableau
Report Issues to: Drew Maxfield email mamaxfi@utah.gov

Report Description: This report contains 3 sections:

- 1) **Recipients as a Share of County Population.** The map of Utah shows the rate of individual program recipients over the county population. The population counts are taken from Utah census data. This data is filtered using two on-page prompts labeled: “Select Benefit Type” (which allows a user to select Child Care, Financial Assistance, Food Stamps, or Medical); and “Select Month and Year” (allowing a user to select a given month). This prompt filters the first section and the second section.
- 2) **Recipient Counts by County.** This chart shows a count of individual recipients for the selected public assistance program.
- 3) **<Program> Households by Month** allows a user to see the number of households over a larger time span to show household enrollment trends over time. This section can also be filtered using two on-page prompts labeled: “Select Benefit Type” (again allowing a user to select the public assistance program); and “Select Area” (allowing a user to show all of Utah or filter to a specific county).

Program Descriptions:

- 1) **Child Care:** Child care includes both employment support and FEP supported Child Care assistance.
- 2) **Financial Assistance:** Financial assistance includes all financial programs including the Family Employment Program, Refugee Cash Assistance, General Assistance, and Transitional Cash Assistance programs.
- 3) **Food Stamps:** SNAP/Food stamp program.
- 4) **Medical:** Medical includes Family Medicaid, Aged Blind & Disabled programs, Pregnant Woman, CHIP, UPP, PCN, Nursing Home, Medicare Cost Sharing programs, Waiver programs, and other special medical programs.
