Notes:

- (1) October 3, 2005 refers to the date at which data are available. Case management information is "point-in-time" on 10/2/05; labor exchange data are for state fiscal year 2005; eligibility data are "point-in-time" on 10/3/05. Source of data is the DWS data warehouse.
- (2) Customer counts are for all persons served. In PACMIS, all household members are counted.
- (3) All database systems are compliant with new Federal race and ethnicity standards. Therefore, sums of race and ethnicity exceed the total number of individuals.
- (4) PACMIS data allow for unborn children to be counted in households.
- (5) Disability status may or may not be disclosed by customers. Disability may or may not affect their ability to work or seek employment. Disability indicators in the PACMIS system are present only if disability is a factor in continued eligibility. Not all PACMIS customers are asked about their disability status.
- (6) If race indicators are blank, or if other races are indicated, they are counted in this category.
