l.	Does your project include any activities, including new construction, acquisition of undeveloped land or conversion that could convert agricultural land to a non-agricultural use?
	☐ Yes → Continue to Question 2. ☐ No
	Explain how you determined that agricultural land would not be converted:
	→ Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide any documentation supporting your determination.
2.	Does "important farmland," including prime farmland, unique farmland, or farmland of statewide or local importance regulated under the Farmland Protection Policy Act, occur on the project site? You may use the links below to determine important farmland occurs on the project site:
	 Utilize USDA Natural Resources Conservation Service's (NRCS) Web Soil Survey http://websoilsurvey.nrcs.usda.gov/app/HomePage.htm
	 Check with your city or county's planning department and ask them to document if the project is on land regulated by the FPPA (zoning important farmland as non-agricultural does not exempt it from FPPA requirements)
	Contact NRCS at the local USDA service center
	http://offices.sc.egov.usda.gov/locator/app?agency=nrcs or your NRCS state soil
	scientist for assistance.
	Scientist for assistance. ☐ No → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide any documents used to make your determination.

- 3. Consider alternatives to completing the project on important farmland and means of avoiding impacts to important farmland.
 - Complete form AD-1006, "Farmland Conversion Impact Rating" <u>http://www.nrcs.usda.gov/Internet/FSE_DOCUMENTS/stelprdb1045394.pdf</u> and contact the state soil scientist before sending it to the local NRCS District Conservationist.
 - (NOTE: for corridor type projects, use instead form **NRCS-CPA-106**, "Farmland Conversion Impact Rating for Corridor Type Projects: http://www.nrcs.usda.gov/Internet/FSE DOCUMENTS/stelprdb1045395.pdf.)
 - Work with NRCS to minimize the impact of the project on the protected farmland. When you have finished with your analysis, return a copy of form AD-1006 (or form NRCS-CPA-106 if applicable) to the USDA-NRCS State Soil Scientist or his/her designee informing them of your determination.

Docume	ent your conclusion:
□Projec	ct will proceed with mitigation.
Expl	ain in detail the proposed measures that must be implemented to mitigate for the
impa	act or effect, including the timeline for implementation.
	· · · · · · · · · · · · · · · · · · ·
\rightarrow	Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide form AD-1006 and all other documents used to make your determination.
□Projec	ct will proceed without mitigation.
Expl	ain why mitigation will not be made here:

Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide form AD-1006 and all other documents used to make

 \rightarrow

your determination.

Worksheet Summary

Compliance Determination

Provide a clear description of your determination and a synopsis of the information that it was based on, such as:

- Map panel numbers and dates
- Names of all consulted parties and relevant consultation dates

Phone: ______

- Names of plans or reports and relevant page numbers
- Are formal compliance steps or mitigation required?

 Yes

 No

 Project Name:

 Address/City/State/Zip:
