3.1. CSBG Lead Agency Mission and Responsibilities:

Briefly describe the mission and responsibilities of the state agency that serves as the CSBG Lead Agency.

The State Community Services Office (SCSO) provides guidance, oversight, and funding to help communities assist people to become more self-reliant (socially, physically, culturally, and economically) by working to reduce the impacts of poverty and improving the quality of life for low-income Utahns. The SCSO coordinates State activities designed to reduce the impacts of poverty and encourage entities in the private sector to participate in efforts to ameliorate poverty in the community. The SCSO will continue to develop and refine policies and procedures to enhance management goals and standards. The SCSO supports efforts to assist grantees to use data and needs assessment information to improve service and program delivery while preserving the flexibility and local initiative of CSBG to impact and address local poverty issues.

3.2. State Plan Goals:

Describe the state's CSBG-specific goals for state administration of CSBG under this State Plan.

(Note: This information is associated with State Accountability Measure 1Sa(i) and pre-populates the State's Annual Report, Module 1, Item B.1.)

Goal 1: The SCSO will administer the CSBG program in Utah in accordance with its mission and in compliance with all applicable statutes, rules, and regulations, in a manner which will increase management efficiency and program effectiveness. Objective 1: The SCSO will allocate and distribute funds in accordance with the CSBG Act and amendments. Objective 2: The SCSO will ensure fiscal accountability of CSBG grantees. Objective 3: The SCSO will support organizational best practices and strengthen organizational capacity, management efficiency, and program effectiveness through review for compliance with the CSBG Organizational Standards as set forth by the Office of Community Services. Goal 2: To advocate for the continuation of funds, community involvement and support, and the expansion of programs to provide services and activities having a measurable impact on the causes and conditions of poverty. Objective 1: Conduct planning activities to promote the successful results of CSBG-funded activities that collaborate with all interested parties throughout the State with the greatest potential impact on poverty in Utah. Objective 2: The SCSO will monitor and evaluate grantee performance through data collection, program assessment, compliance with the organizational standards, and regular on-site visits. Objective 3: Consistent with available resources, training and technical assistance will be provided through the SCSO to increase administrative and operational effectiveness, including compliance with the organizational standards Objective 4: The SCSO, in conjunction with other state offices, will research and report on poverty conditions, including intergenerational poverty, and anti-poverty program outcomes throughout the State.

3.4. Eligible Entity Involvement

3.4a. Describe the specific steps the State took in developing the State Plan to involve the eligible entities.

(Note: This information is associated with State Accountability Measures 1Sa(ii) and may pre-populate the State’s annual report form)

SCSO worked collaboratively with the State Association to gather input for the FY21-FY22 CSBG State Plan. Similar to the plan for gathering input for the FY20 State Plan, SCSO worked with the State Association to create multiple opportunities for CAAs to participate in the development of the state plan. SCSO sent an email to all CAAs and to the state association on 2/19/2020. Several responded with input. Additionally, the state association organized two round table discussions devoted to gathering CAA input for the FY21-FY22 plan. The round table discussions, moved to remote format due to the coronavirus pandemic, were held 3/19/2020 and 3/30/2020. SCSO called in for each of the round table meetings to allow for direct questions. Email, survey, and round table results were shared by the State Association with SCSO and used in the development of a draft of the FY21-FY22 CSBG State Plan. A draft plan was shared with the agencies on June 12, 2020 and additional comment requested. CAAs were also notified of the public hearing held July 13, 2020. Agencies were also able to submit comments during the public comment period which closed August 13, 2020.

3.4b. Performance Management Adjustment: Describe how the state adjusted its State Plan development procedures under this State Plan, as compared to previous plans in order to:

1) encourage eligible entity participation and
2) ensure the State Plan reflects input from eligible entities?

Any adjustment should be based on the State’s analysis of past performance in these areas, and should consider feedback from eligible entities, OCS, and other sources, such as the public hearing. If the State is not making any adjustments, provide further detail.

(Note: This information is associated with State Accountability Measures 1Sb(i) and (ii) and pre-populate the Annual Report, Module 1, Item B.1.)

For the development of the FY21-FY22 plan, SCSO built off of practices implemented last year and which seemed productive on review. SCSO emailed CAAs and the state association directly requesting input and partnered with the State Association. The State Association hosted round table discussions to gather feedback. By partnering with the State Association and by limiting SCSO’s presence in the process (we called into the round table discussions to answer questions), we hoped to improve the amount and directness of feedback and input for the development of the FY21-FY22 plan. Agencies were sent a draft of the state plan (June 12, 2020) for review and comment, about a month ahead of the scheduled public hearing (July 13, 2020).

3.5. Eligible Entity Overall Satisfaction:

Provide the State’s target for eligible entity Overall Satisfaction during the performance period:

Year One 90 Year Two 91

Instructional Note: The state’s target score will indicate improvement or maintenance of the state’s Overall Satisfaction score from the most recent American Customer Survey Index (ACSI) survey of the state’s eligible entities.

(Note: Item 3.5 is associated with State Accountability Measure 8S and may pre-populate the State’s annual report form)

Process for public notice/hearing: Public Hearing: The State Community Services Office published the Notice of Public Comment and Public Hearing on June 12, 2020 on the public notice website and in local newspapers. The public hearing was held (via remote platform due to pandemic) on July 13, 2020.
An updated notice of public hearing was posted to local newspapers and to the public notice website on 6/29/20---and included the url to connect to the public hearing. 6.3a. Assessment Process: Describe the planned assessment process.

The SCSO expects all agencies to be in compliance with the organizational standards in FY21 and FY22. A compliance rate that is below full conformity will require corrective action for each standard that is not met. Corrective action will be developed in partnership with the agencies and progress will be monitored by SCSO. SCSO will provide final review, determination, and approval of corrective action type and plan, as well as any revisions to corrective action plans. An organizational standard assessment tool is included in SCSOs monitoring tool and addresses the 58 standards required for private CAAs as well as the 50 standards required for public CAAs. The SCSO program specialist reviews agencies for compliance with the organizational standards as part of the program monitoring process and may include in this process desktop review of supporting documentation. Documents not submitted in advance for desktop review are viewed in the field during the on-site monitoring visit. During the on-site visit, opportunity is
provided to answer questions as well as explain any deficiencies in meeting the organizational standards. Any areas of noncompliance found during the on-site visit are discussed during an exit interview; opportunity is provided for additional explanation; and, if corrective action is needed, the agency is invited to submit a corrective action plan which is reviewed by SCSO. Once an acceptable corrective action plan is in place, an SCSO program specialist follows up with the agency to ensure corrections are in place.

6.4. Eligible Entity Exemptions: Will the state make exceptions in applying the organizational standards for certain eligible entities due to special circumstances or organizational characteristics (as described in IM 138)? ☐ Yes ☐ No

**Eligible Entity Allocation (90 Percent Funds) [Section 675C(a) of the CSBG Act]**

#### 7.1. Formula:
Select the method (formula) that best describes the current practice for allocating CSBG funds to eligible entities.

- [ ] Historic
- [x] Base + Formula
- [ ] Formula Alone
- [ ] Formula with Variables
- [ ] Hold Harmless + Formula
- [ ] Other

#### 7.1a. Formula Description:
Describe the current practice for allocating CSBG funds to eligible entities.

The 9 eligible entities receive a $50,000 base and a percentage of the remaining 90% pass through funds. A poverty percentage was determined per jurisdiction as part of the revised funding formula adopted by Utah in FY2014. Based on ACS data from 2007-2011, each jurisdictions percent of the States total population living at or below 125% of poverty level was determined and used as a multiplier in addition to the base allocation.

#### 7.1b. Statue:
Does a state statutory or regulatory authority specify the formula for allocating "not less than 90 percent" funds among eligible entities?
- [ ] Yes
- [x] No

#### 7.2. Planned Allocation:
Specify the percentage of your CSBG planned allocation that will be funded to eligible entities and "not less than of 90 percent funds" as described under Section 675C(a) of the CSBG Act.

In the table, provide the planned allocation for each eligible entity receiving funds for the fiscal year(s) covered by this plan.

7.3. Distribution Process:
Describe the specific steps in the state's process for distributing 90 percent funds to the eligible entities and include the number of days each step is expected to take; include information about state legislative approval or other types of administrative approval (such as approval by a board or commission).

CSBG funds are made available to the eligible entities as the State receives award letters from the Department of Health and Human Services, Administration for Children and Families (ACF). Contracts are amended with the receipt of each award letter. The contract process starts with the eligible entity's application for funds, usually in August. Applications include a projected budget based on the final award of the prior fiscal year; however, contracts are created and then amended per receipt of award letter. SCSO works to have contracts in place by October 1. (Application period3 weeks; Contracting period3 weeks). With an executed contract in place, an eligible entity may access funds through submission of claim for reimbursement. Using SCSOs online system, eligible entities submit a claim, upload appropriate supporting documentation, and receive same day notification of the claims submission. Claims are reviewed by SCSO staff generally within 3 business days. If there are questions on the claim or any of its documentation, the claim is put in correcting status and the agency contacted so that correction can be made. When the claim has been reviewed and approved it is forwarded to the finance department for final review (up to 5 days) and for payment, most often made by direct deposit (1 business day). If a check is required for payment, the payment process may take 5 days for the entity to receive payment.

7.4. Distribution Timeframe:
Does the state plan to make funds available to eligible entities no later than 30 calendar days after OCS distributes the federal award? ☐ Yes ☑ No

Note: Item 7.4 is associated with State Accountability Measure 2Sa and may prepopulate the state's annual report form.

7.5. Performance Management Adjustment:
Describe the state's strategy for improving grant and/or contract administration procedures under this State Plan as compared to past plans. Any improvements should be based on analysis of past performance, and should consider feedback from eligible entities, OCS, and other sources, such as the public hearing. If the state is not making any improvements, provide further detail.

Note: This information is associated with State Accountability Measure 2Sb and may prepopulate the state's annual report form.

SCSO gathered feedback from CAAs on grant administration, and on SCSO's ACSI performance, and incorporated suggestions into strategic planning. Opportunities for improvement in all areas of the ACSI were discussed and noted. For example, CAAs requested a quarterly newsletter from SCSO to recap in one place updates that SCSO has shared through other venues (ie. email, state updates at the state association meeting, etc.) Creation of a newsletter is in process but with the pandemic, SCSO has held regulary webinar meetings (generally bi-weekly) with the CAAs since April. CAAs also asked for periodic and informal calls (one-on-one) as an opportunity to discuss current challenges as well as to touch base on expectations and requirements of the next several months. Communication increased to weekly conference calls as SCSO worked with CAAs to coordinate a variety of funding resources, including CSBG discretionary and CARES funding, to redress the impacts of the COVID-19 pandemic.

For example, if the state provides funds under a contract with the State Community Action association to provide training and technical assistance to eligible entities and to create a statewide data system, the funds for that contract should be allocated appropriately between Items 7.9a. - 7.9c. If allocation is not possible, the state may allocate the funds to the main category with which the activity is associated.

- The state partially carries out some activities
- CSBG eligible entities (if checked, include the expected number of CSBG eligible entities to receive funds) 1
- Other community-based organizations

7.11. Performance Management Adjustment:

Describe any adjustments the state will make to the use of remainder/discretionary funds under this State Plan as compared to past plans. Any adjustment should be based on the state's analysis of past performance, and should consider feedback from eligible entities, OCS, and other sources, such as the public hearing. If the state is not making any adjustments, provide further detail.

Note: This response will link to the corresponding CSBG assurance, item 14.2.

The State gathered eligible entity input on the use of discretionary funds through survey and round table discussions and incorporated agency input as evidenced in the adjustments from the FY 20 discretionary plan to the FY 21-FY22 plan. The increase in the teaching and technical assistance amount planned for the state association reflects SCSO confidence in the leadership within that organization. The state association plans to take on more of the t/ta needed by the CAAs. The State will also continue to fund its portion of teaching and technical assistance activity through its admin allocation and thereby make available more discretionary resources for locally identified priorities. This significant allocation in funding the other category reflects effort by the State office to direct discretionary funds to priorities identified by the State and its eligible entity partners and the networks reiterated appreciation and approval of this prioritization. CAAs requested remaining FY19 and FY20 discretionary be distributed to CAAs to immediately redress COVID-19 challenges and SCSO was able to quickly amend contracts and add these discretionary funds.

8.1. Describe the State’s plan for delivering CSBG-funded training and technical assistance to eligible entities under this State Plan by completing the table below.

(CSBG funding used for this activity is referenced under item 7.9(a), Remainder/Discretionary Funds. States should also describe training and technical assistance activities performed directly by state staff, regardless of whether these activities are funded with remainder/discretionary funds.)

8.1b. Training and Technical Assistance Collaboration: Describe how the state will collaborate with the state association and other stakeholders in the planning and delivery of training and technical assistance.

The State collaborates with the State Association and other stakeholders in the planning and delivery of training and technical assistance (t/ta). The State works with the State Association to solicit input from the CAAs as to t/ta need. The State Association surveyed CAAs and other stakeholders about their training needs. It conducted remote round table discussions with the CAAs (3/19/2020 and 3/30/2020) and invited the State to call in to answer questions. In each forum, topics and best platform for t/ta delivery were discussed as well as whether the State, State Association, or other resource would be best to provide the training. In this way, a plan for FY21-FY22 T/TA was developed. The State Association also conducted surveys to understand the pandemic's impact on training needs and feedback was used in strategic planning and would continue to be used going forward. There is no ongoing corrective action.

8.2a. Address Unmet Organizational Standards: Describe the state's plan to provide T/TA to eligible entities to ensure they address unmet Organizational Standards. One agency did not meet standard 5.5 due to lack of quorum for the tripartite board which caused meeting cancellation. This was followed by an inability to schedule another meeting within the time specified in its bylaws. Additionally, the same agency struggled to fill a vacant, public sector board position (standard 5.1). The agency filled this vacancy, held board member training on roles and responsibilities, adjusted language in its bylaws, and has since met quorum and held board meetings. The State supported the agency with t/ta on board roles and responsibilities and suggested the tripartite board review the language in its bylaws. There is no ongoing corrective action. Another agency did not meet standard 6.4. The documentation used to support the standard at time of the monitoring was inadequate. The agency conducted new surveys and results were shared with SCSO as well as with the tripartite board. The agency demonstrated how this feedback was used in strategic planning and would continue to be used going forward. There is no ongoing corrective action.

8.2b. TAPs and QIPs: Does the state have Technical Assistance Plans (TAPs) or Quality Improvement Plans (QIPs) in place for all eligible entities with unmet organizational standards, if appropriate? Yes ☐ No ☑

Note: This information is associated with State Accountability Measure 6Sb. QIPs are described in Section 678C(a)(4) of the CSBG Act. If the State, according to their corrective action procedures, does not plan to put a QIP in place for an eligible entity with one or more unmet organizational standards, the State should put a TAP in place to support the entity in meeting the standard(s).

8.3. Training and Technical Assistance Organizations: Indicate the types of organizations through which the State Plans to provide training and technical assistance.

- CSBG eligible entities (if checked, provide the expected number of CSBG eligible entities to receive funds)
- Other community-based organizations
- State Community Action association
- Regional CSBG technical assistance provider(s)
- National technical assistance provider(s)
- Individual consultant(s)
- Tribes and Tribal Organizations
- Other

8.4. Performance Management Adjustment: Describe adjustments to the training and technical assistance plan in response to past plans. Any adjustment should be based on the state's analysis of past performance, and should consider feedback from eligible entities, OCS, and other sources, such as the public hearing. If the state is not making any adjustments, provide further detail.

Note: This information is associated with State Accountability Measures 3Sd. May pre-populate the state’s annual report form

The State sent emails requesting input from the CAAs and coordinated with the state association to hold round table discussions to better understand the teaching and technical assistance needs of the CAAs and to more directly include their input into the FY21-FY22 CSBG State Plan. The State recognized need for some training in grant management as a result of monitoring and has worked that into the T/TA plan as well. The CAAs asked for training in several areas, including risk assessment, board training, and trauma informed care. The State included these requests in preparation of its T/TA plan for FY21 and FY22.
## Section 9: State Linkages and Communication

### 9.1. State Linkages and Coordination at the State Level:

Describe the linkages and coordination at the state level that the State plans to create or maintain to ensure increased access to CSBG services to low-income people and communities under this State Plan and avoid duplication of services (as required by the assurance under Section 676(b)(5)).

Describe or attach additional information as needed. [Check all that apply and narrative where applicable]

### 9.2. State Linkages and Coordination at the Local Level:

Describe the linkages and coordination at the local level that the state to create or maintain with governmental and other social services, especially antipoverty programs, to assure the effective delivery of and coordination of CSBG services to low-income people and communities and avoid duplication of services, (and as required by assurances under Sections 676(b)(5) – (6))

Note: This response will link to the corresponding CSBG assurances, items 14.5 and 14.6., and pre-populates the Annual Report, Module 1, Item G.2.

Linkages and coordination efforts are identified at a local level by the CAAs. Through the needs assessment and the community action plan, the nine CAAs in Utah identify the gaps in their areas and create the linkages and engage in service coordination to fill as many gaps as possible. The State asks for specific input from the CAAs through surveys on how to facilitate better linkages on the local level. The State will continue to support and work with the CAAs to support collaborative efforts that may be beyond individual agency capacity. The State will support each entity in their efforts to work with other State departments local offices and will analyze the needs assessments and CAPs to identify overlap or opportunities for agencies to collaborate at a local level. If overlap is identified, the State will work with the CAAs to collaborate and redirect resources and clients to reduce duplication. Below is a list of linkages and coordination throughout the State that is in place and or will be developed during this State Plan. ### 9.3. Eligible Entity Linkages and Coordination
9.3a. State Assurance of Eligible Entity Linkages and Coordination:

Describe how the state will assure that the eligible entities will coordinate and establish linkages to assure the effective delivery of and coordination of CSBG services to low-income people and communities and avoid duplication of services (as required by the assurance under Section 676(b)(5)).

Note: This response will link to the corresponding CSBG assurance, item 14.5.

The State conducts regular programmatic monitoring of the nine CAAs. During these monitoring visits, the State reviews the CAAs for linkages and coordination that the entities identified in the needs assessments and in their application for funds. The SCSO will determine if the entities have created the linkages and coordination with other agencies identified in the CAP. If the State determines that the entities have not met this assurance, the State will work with the entities and provide the needed support to assist the CAAs in fulfilling the assurance.

9.3b State Assurance of Eligible Entity Linkages to Fill Service Gaps:

Describe how the eligible entities will develop linkages to fill identified gaps in the services, through the provision of information, referrals, case management, and follow-up consultations, according to the assurance under Section 676(b)(3)(B) of the CSBG Act.

Note: This response will link to the corresponding CSBG assurance, item 14.3b., and pre-populates the Annual Report, Module 1, Item G.3b.

Linkages, as described in Sec. 675 (C) of the CSBG Act, occur with the: (1) use (of) funds available under this subtitle(D) to coordinate and establish linkages between governmental and other social services programs to assure the effective delivery of such services to low-income individuals. Linkages occur as local grantees prepare a community action plan every three years by conducting local needs assessments, describing resources available in their respective areas, performing an analysis of services designed to identify gaps and duplication, and finally, describing the agency policies and procedures regarding coordination. Local grantees are working to expand their strategic planning beyond the 3-Year Needs Assessment conducted in their communities. The CAAs coordinate with their local Workforce Services, school districts, Continua of Care and their local homeless coordinating committees to extend community involvement in their agencies, enhance integration of services, maximize impact, and deepen understanding of need. These linkages not only provide more effective service delivery, but also help agencies meet the proposed organizational standards addressing consumer input and involvement as well as strategic planning. Documentation of linkages is provided with the grant application to the State. The application identifies the other agencies and resources which coordinate and support the work program activities proposed.

9.4. Workforce Innovation and Opportunity Act (WIOA) Employment and Training Activities:

Does the state intend to include CSBG employment and training activities as part of a WIOA Combined State Plan, as allowed under the Workforce Innovation and Opportunity Act (as required by the assurance under Section 676(b)(5) of the CSBG Act)?

☐ No
☐ Yes

Note: This response will link to the corresponding CSBG assurance, item 14.5.

9.4a. WIOA Combined Plan: If the state selected "yes" under item 9.4, provide the CSBG-specific information included in the state’s WIOA Combined Plan. This information includes a description of how the state and the eligible entities will coordinate the provision of employment and training activities through statewide and local WIOA workforce development systems. This information may also include examples of innovative employment and training programs and activities conducted by community action agencies or other neighborhood-based organizations as part of a community antipoverty strategy.

The State of Utah includes CSBG employment and training activities in its WIOA Unified Plan through language that recognizes partnership and coordination with required partners. As the State implements the unified plan, it will work to refine and further develop that coordination and support through State Workforce Development Board committees and expert work groups. CAAs are encouraged (through contract and monitoring) to coordinate with and refer to their local Workforce Services One Stop. Coordination is additionally tightened as Workforce Service centers have transitioned to American Job Centers.

9.4b. Employment and Training Activities: If the state selected "no" under item 9.4, describe the coordination of employment and training activities, as defined in Section 3 of WIOA, by the state and by eligible entities providing activities through the WIOA system.

9.5. Emergency Crisis Intervention:

Describe how the state will assure, where appropriate, that emergency energy crisis intervention programs under Title XXVI (relating to Low-Income Home Energy Assistance) are conducted in each community in the state, as required by the assurance under Section 676(b)(6) of the CSBG Act.

Note: This response will link to the corresponding CSBG assurance, item 14.6.

During the review of the Annual Report, the SCSO reviews the linkages that exist between eligible entities and other antipoverty programs such as low-income home energy assistance programs. The State will continue to support coordination through referrals to eligible entities of other programs they qualify to provide. List of CAAs which administer LIHEAP program: 1. Bear River Association of Governments. 2. Five County Association of Governments. 3. Salt Lake Community Action Program dba Utah Community Action 4. Six County Association of Governments 5. 9.6. Faith-based Organizations, Charitable Groups, Community Organizations:

Describe how the state will assure local eligible entities will coordinate and form partnerships with other organizations, including faith-based organizations, charitable groups, and community organizations, according to the state’s assurance under Section 676(b)(9) of the CSBG Act.

Note: this response will link to the corresponding CSBG assurance, item 14.9.

The State of Utah assures that CSBG funds are coordinated with other organizations, including faith-based organizations, charitable groups, and community organizations, primarily through the process of requiring and collecting comprehensive 3-Year Community Needs Assessments, in accordance with CSBG Act, and through monitoring activities, including but not limited to the collection of the annual report each year and monitoring on Organizational Standards. Eligible entities are required to provide to the State of Utah, every three years, a comprehensive community assessment, which includes data specific to poverty and its prevalence related to gender, age, and race/ethnicity in the service area, qualitative and quantitative data on the geographic service area, and key findings on the causes and conditions of poverty and the needs of the communities assessed. The community assessment also includes information gathered from key sectors of the community, including at minimum: community-based organizations, faith-based...
organizations, private sector, public sector, and educational institutions. The information gathering activities, mandated by the community needs assessment, require eligible entities to engage and communicate with other service providers in the service area. In addition, the assessment requires the eligible entity to analyze internal programmatic activities and resources to determine whether more effective strategies for service delivery or opportunities for partnership or coordination exist. The State of Utah utilizes the process and findings of the community needs assessment to encourage more effective use of funds and coordination and collaboration with related programs and organizations in each respective service area. The State of Utah further assures coordination of programs and partnerships among local entities and other organizations through monitoring activities, including but not limited to the collection of the Annual Report each year and monitoring on Organizational Standards. The Annual Report includes National Performance Indicators (NPIs) that measure the number agencies with which each local eligible entity partners and the number of partnerships the eligible entity engages with respect to CSBG. Further, Organizational Standards require agencies to document or demonstrate partnerships across the community, for specifically identified purposes (Section 2.1), and to utilize CNA information from key sectors.

9.7. Coordination of Eligible Entity 90 Percent Funds with Public/Private Resources:
Describe how the eligible entities will coordinate CSBG 90 percent funds with other public and private resources, according to the assurance under Section 676(b)(3)(C) of the CSBG Act.

Note: this response will link to the corresponding assurance, item 14.3c.

The State of Utah assures that CSBG funds are coordinated with other public and private resources primarily through monitoring activities, including the collection of Annual Report data and through the process of requiring and collecting comprehensive 3-Year Community Needs Assessments, in accordance with CSBG Act Section 676(b)(11). The State of Utah assures coordination of programs and effective use of funds through monitoring activities, including but not limited to the collection of the Annual Report each year. Annual Reports include detailed information on the public and private resources of local eligible entities and how resources are used. Additionally, eligible entities are required to provide to the State of Utah every three years a comprehensive community assessment. The activities mandated by the community needs assessment require eligible entities to analyze internal programmatic activities and resources to determine whether more efficient or effective strategies for service delivery exist within the agency. The State of Utah utilizes the process and findings of the community needs assessment to encourage more effective use and coordination of resources and coordination with related programs in each respective service area. Furthermore, the eligible entity work plans produced in the community needs assessments are used to inform the CSBG contract making process with each eligible entity.

9.8. Coordination among Eligible Entities and State Community Action Association:
Describe state activities for supporting coordination among the eligible entities and the state community action association.

Note: This information will pre-populate the Annual Report, Module 1, Item G.5.

The State of Utah supports coordination among CSBG eligible entities through the discretionary activities of the State Association, Community Action Partnership of Utah (CAP Utah). CAP Utah convenes bimonthly State Association Meetings that are open to all eligible entities and are a forum for collaboration, coordination, and CSBG training and technical assistance. CAP Utah also supports coordination among eligible entities through the facilitation of communications of the CSBG peer-network in Utah, including through the maintenance of an electronic library of CSBG T/TA resources, and timely updates from state and national partners. CAP Utah an annual poverty conference, a training event that increases the capacity of eligible entities and serves as a forum for collaboration, continuing education, networking, peer-support, and skill development. Furthermore, coordination is supported, encouraged, and facilitated as needed through regular consultation by CAP Utah with local eligible entities.

9.9. Communication with Eligible Entities and the State Community Action Association:
In the table below, detail how the state intends to communicate with eligible entities, the state community action association, and other partners identified under this State Plan on the topics listed below. For any topic that is not applicable, select "Not Applicable" under Expected Frequency.

9.10. Feedback to Eligible Entities and State Community Action Association:
Describe how the state will provide information to local entities and state community action associations regarding performance on state accountability measures.

**Note: This information is associated with State Accountability Measure 5S(iii). and will pre-populate the Annual Report, Module 1, Item G.6**

The State forwards copy of the ACSI report to the agencies within 30 days of receipt of the report. The State presents the report at State Association meeting following the distribution of the report. The State shares its plan for improvement on the ACSI through email, webinar discussion, or in person meeting (State Association or other) within 60 days of receipt of report and following analysis and strategic planning conducted by the State.

9.11. Performance Management Adjustment:
Describe any adjustments the state made to the Communication Plan in this State Plan as compared to past plans. Any adjustment should be based on the state’s analysis of past performance, and should consider feedback from eligible entities, OCS, and other sources, such as the public hearing. If the state is not making any adjustments, provide further detail.

**Note: This information is associated with State Accountability Measures 7Sb; this response may pre-populate the state’s annual report form.**

The State adjusted its communication plan to solicit and encourage CAA participation in the development of the FY21-FY22 State Plan. The State recognized from analysis of ASCI scores that there was continued opportunity to improve performance in this area. Changes were made in process for the preparation of the plan. SCSO review of adjustments made in FY20 encouraged further adjustment for the development of the FY21-FY22 plan. For FY21-FY22, SCSO sent emails to the CAAs directly requesting input and comment for the FY21-FY22 plan and SCSO collaborated with the State Association, which conducted remote round table discussions to gather input for the FY20 plan. SCSO called into the round table meetings so as to be available during part of the meeting to answer questions. The feedback gathered by the State Association was shared with SCSO and incorporated into the development of the FY21-FY22 plan.
### Section 10: Monitoring, Corrective Action, and Fiscal Controls

10.1. Specify the proposed schedule for planned monitoring visits - including full on-site reviews; on-site reviews of newly designated entities; follow-up reviews - including return visits to entities that failed to meet State goals, standards, and requirements; and other reviews as appropriate.

This is an estimated schedule to assist states in planning. States may indicate "no review" for entities the state does not plan to monitor in the performance period.

The State will review and issue a decision on whether to approve the plan no later than 30 days after receiving the plan from an eligible entity. Fiscal Controls and Audits and Cooperation Assurance

10.11. Fiscal Controls and Accounting:
Describe how the state’s fiscal controls and accounting procedures will a) permit preparation of the SF-425 Federal fiscal reports (FFR) and b) permit the tracing of expenditures adequate to ensure funds have been used appropriately under the block grant, as required by Block Grant regulations applicable to CSBG at 45 CFR 96.30(a).

The primary financial accounting system for the State of Utah is FINET. Data from this system is used to compile the annual SF-425 Federal fiscal reports (FFR). This report is reviewed by the Departments Finance Director and submitted annually based on the September 30 Federal fiscal year end. The SCSO, within the Housing and Community Development Division (HCDD) of the Utah Department of Workforce Services (DWS), has primary responsibility for administering the CSBG program. SCSO utilizes WebGrants, a web-based grants management system, for tracking expenditures under the CSBG program. Financial data from the Web Grants system is reconciled to the FINET system monthly. Eligible entities are required to submit an annual application which includes a community action plan (CAP) and CSBG program budget. The applications are submitted online; funding is appropriated; and the grant agreements are generated from the Web Grants system. The CSBG sub-awards are managed on a cost reimbursement basis. Throughout the grant period, the sub-recipients create and submit a request for reimbursement using Web Grants. Costs are summarized and reported by CSBG program category. Supporting documentation includes a minimum of transaction level detail report(s) generated from the eligible entities financial management system is attached to each request for funds (RFF). The RFF is reviewed by the program specialist to determine if the reported costs are appropriate and, if approved, forwarded to DWS Finance for further processing. Finance reviews each claim and, upon approval, forwards authorization for payment. All nine eligible entities requested and have been approved for Direct Deposit. Discretionary funds are managed similarly to those of the eligible entities. Administrative costs include the salaries and benefits for various staff assigned to the CSBG program. Time is recorded in an online database and the detail is maintained in FINET. The State uses direct billing for all employee expenses, including travel. Summary amounts for administrative costs incurred are posted in the WebGrants system to assist the Program Manager in monitoring budgeted versus actual expenditures.

10.12. Single Audit Management Decisions:
Describe state procedures for issuing management decisions for eligible entity single audits, as required by Block Grant regulations applicable to CSBG at 45 CFR 75.521.

Note: This information is associated with State Accountability Measure 4Sd.

Single audit reports are reviewed by the Department of Workforce Services (DWS) single audit Compliance Officer and a Financial Analyst within DWS. SCSO is notified in writing of any findings that may affect CSBG or other programs administered by SCSO. The DWS auditor reviews the independent auditors finding(s) and the CAA’s response(s). The DWS auditor notifies the CSBG program manager of any findings related to programmatic issues. SCSO staff may request specific documentation or conduct an on-site review to determine the extent to which CSBG program funds or program requirements may be affected. Once the evaluation has been completed, DWS issues a management decision letter to the CAA. DWS issues the management decision letter within six months of the date the single audit is accepted by the Federal Audit Clearinghouse. The letter states whether or not the audit finding is sustained, the reasons for the decision, and the expected CAA action to repay disallowed costs, make financial adjustments, or other action. For findings involving questioned costs, the management decision letter includes a statement that: 1. The corrective action taken by the CAA is considered adequate to resolve the finding and no further action is required; or 2. Additional information needs to be provided by the CAA as to the status of the planned corrective action; or 3. Based on the information made available through the date of the Management Decision Letter, the CAA is required to reimburse DWS an amount for questioned costs, or provide additional documentation justifying the allowability of questioned costs by a specified date.

The CAA is provided information regarding any appeal process available and notified of the consequences for failure to honor such request for repayment or additional documentation. For administrative findings, the Management Decision Letter includes a statement that: DWS is satisfied that the CAA has taken corrective action to resolve the finding(s), and no further action is required; or The CAA needs to address the uncorrected issues by developing and implementing the necessary corrective actions. The CAA may be required to submit quarterly progress reports, with the due date of the initial report and dates for subsequent quarterly reports specified. Any uncorrected administrative findings will be tracked until effective corrective action is implemented, or other resolution occurs that meets the approval of DWS.

10.13. Assurance on Federal Investigations:
The state will "permit and cooperate with Federal investigations undertaken in accordance with Section 678D" of the CSBG Act, as required by the assurance under Section 676(b)(7) of the CSBG Act. ☐ Yes ☒ No

Note: This response will link with the corresponding assurance, Item 14.7.

10.14. Performance Management Adjustment:
Describe any adjustments the state made to monitoring procedures in this State Plan as compared to past plans. Any adjustment should be based on the state's analysis of past performance, and should consider feedback from eligible entities, OCS, and other sources, such as the public hearing. If the state is not making any adjustments, provide further detail.

Note: This item is associated with State Accountability Measure 4Sb and may pre-populate the state's annual report form.
### Section 11: Eligible Entity Tripartite Board

#### State Use of Funds

11.1. Tripartite Board Verification: Verify which of the following measures are taken to ensure that the state verifies CSBG Eligible Entities are meeting Tripartite Board requirements under Section 676B(a)(2) of the CSBG Act *[Check all that applies and narrative where applicable]*

- [x] Attend Board meetings
- [x] Organizational Standards Assessment
- [x] Monitoring
- [x] Review copies of Board meeting minutes
- [ ] Track Board vacancies/composition
- [ ] Other

11.2. Tripartite Board Updates: Provide how often the state require eligible entities (which are not on TAPs or QIPs) to provide updates regarding their Tripartite Boards. This includes but is not limited to copies of meeting minutes, vacancy alerts, changes to bylaws, low-income member selection process, etc. *[Select one and narrative where applicable]*

- [ ] Annually
- [ ] Semiannually
- [x] Quarterly
- [ ] Monthly
- [ ] As it Occurs
- [ ] Other

11.3. Tripartite Board Representation Assurance: Describe how the state will verify that eligible entities have policies and procedures by which individuals or organizations can petition for adequate representation on an eligible entity’s Tripartite Board as required by the assurance under Section 676(b)(10) of the CSBG Act

*Note: This response will link with the corresponding assurance, item 14.10.*

The SCSO will review, as part of the monitoring process each fiscal year, the bylaws of the eligible entities and determine if there is a procedure describing how a qualified individual or organization can petition for representation on the board. This review occurs before the SCSO Program Specialist arrives at the organizations site. If the Program Specialist determines that the procedure is not in the bylaws then the SCSO will provide the agencies with the appropriate language and procedure, and require that the agency incorporate the procedures into their bylaws by the next agency board meeting (the agency will be permitted to use language that is appropriate for their agency). Within one week of the board meeting, the agency is required to submit the updated and approved bylaws to the appropriate SCSO staff for review and verification. SCSO will ensure that all eligible entities have a petitioning procedure in their bylaws. If, after being supplied with the appropriate language and procedure, the agency does not include such a procedure in its bylaws by the next board meeting, the SCSO will pursue corrective action or training and technical assistance to ensure that the agency included the proper petitioning procedures.

11.4. Tripartite Board Alternative Representation: Does the state permit public eligible entities to use, as an alternative to a Tripartite Board, “another mechanism specified by the state to assure decision-making and participating by low income individuals in the development, planning, implementation, and evaluation of programs” as allowed under Section 676B(b)(2) of the CSBG Act. [ ] Yes  [x] No

11.4a. Tripartite Board Alternative Mechanism: If yes, describe the mechanism used by public eligible entities as an alternative to a Tripartite Board.
Section 12: Individual and Community Eligibility Requirements

12.1. Required Income Eligibility:
Provide the income eligibility threshold for services in the state.

[Check one item below.]

- ☐ 125% of the HHS poverty line
- ☒ X% of the HHS poverty line (fill in the threshold)
- ☐ Varies by eligible entity

[Response Option: numeric field]

12.1a. Income Eligibility Policy and Procedures: Describe any state policy and/or procedures for income eligibility, such as treatment of

- percentage
- factors
- methods
- determinations
- appeals
- documentation

Utah expanded eligibility for FY21 to 200% FPL. Currently, there is no Federal permission to expand for FY22--so eligibility for FY22 will remain at or below 125% of FPL unless Federal permission is provided for expansion. CSBG Income Verification Procedures: All clients receiving services or participating in programs that use CSBG funding must be able to demonstrate that they are eligible for the CSBG program and that the household gross income, of those 18 years or older, is 125% or less than the federal poverty guidelines (Note--FY21 expanded to 200% FPL). According to Community Action Program Legal Services (CAPLAW), the income of all members of each individual family unit must be included in determining the income eligibility. A family unit is either (1) related individuals, or (2) an unrelated individual excluding house mates (renters or lesseas). If a household includes more than one family unit, the poverty guidelines shall be applied separately to each family unit, and not to the household as a whole. If a person lives with a family, add up the income of all family members. (Do not count Non-relatives such as housemates [renters, lesseas]). A list of allowable and unallowable income verification types and sources is available upon request. In order to accurately determine income eligibility for program services, the eligibility determinations must be based on gross household income for the 30 days prior to application for assistance/services. In order to continue to qualify for services, each Agency will require recipients of CSBG funded services to submit approved income documentation at a minimum of once every 12 months. In order to accurately demonstrate client eligibility, the following items must be included in each client file: Current poverty guidelines; Gross income for all household members over 18 (as determined from the above sources); Source documentation for determining income and income types and amounts; Calculations used to determine annualized gross income; Agencies are also required to verify residency using a financial or bill statements, letters or documents from an official government source or verifiable entity, or other confirmable source excluding friends, relatives, or neighbors. Mailed sources must have been received by the applicant within 30 days prior to the application being filled out and submitted. Limited in-take procedures In situations where individual income verification is not possible or practical, or the client claims zero income, eligible entities are required verify income in one of the following ways: a) Using third party documentation, such as other government funded program applications (e.g. SNAP and TANF, etc.). b) In the situation that income documentation does not exist, or the participant has tried to retrieve documentation of proof of income and has been unsuccessful, the participant is required to complete and sign a self-declaration of no income.

12.2. Income Eligibility for General/Short-Term Services:
Describe how the state ensures eligible entities generally verify income eligibility for those services with limited in-take procedures (where individual income verification is not possible or practical). An example of these services is emergency food assistance.

The nine CAAs agencies throughout Utah verify income, using third party documentation, for every program that requires verification. In the situation that such documentation does not exist, the participant is required to complete and sign a self-declaration of no income. When the participant is able to obtain proof of income, the participant is required submit it to a case manager who will then assess the income eligibility of the services provided.

12.3. Community-targeted Services: Describe how the state ensures eligible entities’ services target and benefit low-income communities for services that provide a community-wide benefit (e.g., development of community assets/facilities, building partnerships with other organizations).

Eligible entities begin the process of ensuring that services target low-income communities through the needs assessment. This assessment surveys low-income individuals and organizations serving low-income people. The survey collects information regarding services that are available and services that are needed. With this data, entities create partnerships, strategic goals, community programs, and services that target the people and organizations surveyed. The agencies partner with other organizations that serve low-income individuals and their communities. The State verifies, (using the needs assessment, annual report, and monitoring results) that services are targeting low-income individuals.
Section 13: Results Oriented Management and Accountability (ROMA) System

13.1. Performance Measurement System:
Identify the performance measurement system that the state and all eligible entities use, as required by Section 678E(a) of the CSBG Act and the assurance under Section 676(b)(12) of the CSBG Act.

Note: This response will also link to the corresponding assurance, Item 14.12, and will pre-populate the Annual Report, Module 1, Item I.1.

☑ The Results Oriented Management and Accountability (ROMA) System
☐ Another performance management system that meets the requirements by Section 678E(b) of the CSBG Act
☐ An alternative system for measuring performance and results

13.1a. ROMA Description: If ROMA was chosen in Item 13.1, describe the state's written policies, procedures, or guidance documents on ROMA.

The State includes adherence to the organizational standards in its CSBG contracts. The State's monitoring tool also includes the organizational standards, several of which incorporate ROMA. The State supports ROMA training and implementation through Discretionary activities which include support for regular training, as-needed training, and consultation on ROMA principles to local CAAs by ROMA certified trainers.

13.1b. Alternative System Description: If an alternative system was chosen in Item 13.1, describe the system the state will use for performance measurement.

13.2. Outcome Measures: Indicate and describe the outcome measures the state will use to measure eligible entity performance in promoting self-sufficiency, family stability, and community revitalization, as required under Section 676(b)(12) of the CSBG Act.

Note: This response will also link to the corresponding assurance, Item 14.12.

☑ CSBG National Performance Indicators (NPIs)
☐ NPIs and others
☐ Others

The State of Utah will use the CSBG National Performance Indicators as outcome measures to measure eligible entity performance in promoting self-sufficiency, family stability, and community revitalization, as required under Section 676(b)(12) of the CSBG Act.

13.3. Eligible Entity Support: Describe how the state supports the eligible entities in using the ROMA or alternative performance measurement system.

Note: The activities described under Item 13.3 may include activities... listed in "Section 8: State Training and Technical Assistance." If so, mention briefly, and/or cross-reference as needed. This response will also link to the corresponding assurance, item 14.12.

The nine Community Action Agencies (staff and boards) have been trained and continue to receive ongoing training in outcome-based management, and Community Action Agencies have implemented ROMA concepts for all CSBG-related activities to guide needs assessments, agency mission review, activity planning, resource allocations, service delivery, and measuring and reporting results. The use of a data system is required and must be submitted annually to the State to support the Annual Report. With this requirement, the agencies have the data available to evaluate program performance and make adjustments. In monitoring to compliance with the organizational standards, the State also holds agencies and their board accountable to using ROMA methodology and provides T/TA support via the State Association on a scheduled and as-needed basis.

13.4. Eligible Entity Use of Data:
Describe how the state plan to validate the eligible entities that are using data to improve service delivery?

Note: This response will also link to the corresponding assurance, Item 14.12.

The State does and will ensure that entities are using client data, which is tracked and gathered for outcome measures and to improve service delivery, as part of the monitoring process and procedures that occur annually. The SCSD attends or receives minutes of mid-year board meetings where the CAAs report on their mid-year progress in meeting organizational goals. During the monitoring process, the State will continue to review the ROMA tracking system that each entity uses. Most of the CAAs have either the ClientTrack or CAP60 system that is used for client application in-take and outcome measures. During the monitoring process, the SCSD staff member reviews the entities client tracker systems and data reports. The use of data is also verified in the mid-year and annual reports. Below are the monitoring questions that the State asks the eligible entities on how data is used to improve service delivery: Is the agency on track to meet the goals and objectives stated in the application and Scope of Work by the end of the contract period? Is the agency utilizing all of its current year Performance Measures in its service delivery area to measure outcomes? Has the agency developed a system, or does the agency use the existing ROMA system, to provide a description of outcome measures to be used to measure performance in promoting self-sufficiency, family stability, and community revitalization? Is the agency utilizing all of its current year Performance Measures in its service delivery area to measure outcomes?
13.5. Community Action Plan: Describe how the state will secure a Community Action Plan from each eligible entity, as a condition of receipt of CSBG funding by each entity, as required by Section 676(b)(11) of the CSBG Act.

Note: this response will link to the corresponding assurance, Item 14.11.

The State requires a work plan to accompany annual application for CSBG funding. The contract work plan must tie directly to the agency's Community Action Plan which comes from the CAAs three year community needs assessment. The most recent needs assessments and community action plans were submitted to the SCSO in August, 2019. Agencies additionally submitted abbreviated needs assessments and CAPs to SCSO in May 2020 in effort to assess impact of COVID on their communities and as part of their application for CSBG CARES funding.

13.6. Community Needs Assessment:
Describe how the State will assure that each eligible entity includes a community needs assessment for the community served (which may be coordinated with community needs assessments conducted by other programs) in each entity's Community Action Plan, as required by Section 676(b)(11) of the CSBG Act.

Note: this response will link to the corresponding assurance, Item 14.11.

The State currently and will continue to require that agencies submit a community needs assessment every three years and as required by Section 676(b)(11) of the CSBG Act. In August 2019, the next needs assessment will be submitted by the CAAs to SCSO. If an agency does not submit a needs assessment, the State will make sure T/TA and consulting is provided to the entity to assist in conducting an assessment.

(C) to make more effective use of, and to coordinate with, other programs related to the purposes of this subtitle (including state welfare reform efforts)

The State of Utah assures that funds are used to make more effective use of, and coordinate with, other programs related to the purposes of CSBG through several mechanisms, including coordination with the State initiative on Intergenerational Poverty and local initiatives on homelessness. The State also requires submission of comprehensive 3-Year Community Needs Assessments, in accordance with CSBG Act Section 676(b)(11). CNAs include data specific to poverty and its prevalence related to gender, age, and race/ethnicity in the service area, qualitative and quantitative data on the geographic service area, and key findings on the causes and conditions of poverty and the needs of the communities assessed. The analysis and strategic planning activities mandated by the CNA require eligible entities to examine internal programmatic activities and resources to determine whether more efficient or effective strategies for service delivery exist within the agency. The State of Utah will utilize the process and findings of the CNAs to encourage more effective use of funds and coordination with other funding sources and related programs in each respective service area. Furthermore, the eligible entity community action plans will be used to inform the CSBG contract making process with each eligible entity. The State of Utah further assures coordination of programs and effective use of funds through monitoring activities, including but not limited to the collection of Annual Reports each year, which include detailed information on the resources of local eligible entities and National Performance Indicators (NPIs) that measure eligible entities capacity to achieve results. The State also encourages coordination through support of Continua of Care and encouragement of CAA participation in local homeless coordinating committees. With homeless funds, HEAT, LIHEAP, Weatherization, and TANF funds administered by DWS, program coordination is a natural result.

State Use of Discretionary Funds

14.2 676(b)(2) Describe "how the state intends to use discretionary funds made available from the remainder of the grant or allotment described in section 675C(b) in accordance with this subtitle, including a description of how the state will support innovative community and neighborhood-based initiatives related to the purposes of this subtitle."

14.3a. 676(b)(3)(A) Describe "the service delivery system, for services provided or coordinated with funds made available through grants made under 675C(a), targeted to low-income individuals and families in communities within the state;

Utahs CSBG network consists of nine community action agencies, five of which are public, and four of which are private. CSBG grantees meet the requirements of the CSBG Act through a variety of programs and activities. The service delivery systems vary among agencies, but all coordinate with local resources, including the WIOA One-Stops/American Job Centers. Changing local needs and the availability of resources are reflected in the annual application. Some agencies emphasize case management and family development programs, with others emphasizing emergency services, housing and nutrition. The community action plan identifies the problem area and outlines the objective, activities, and projected outcomes. The semi-annual progress report shows accomplishments and includes data on client management goals that fulfill its mission, State requirements, and the mandates of Federal legislation. Program administration includes planning and coordination, monitoring and oversight, characteristics and grantee level of effort.

Eligible Entity Linkages - Approach to Filling Service Gaps

14.3b. 676(b)(3)(B) Describe "how linkages will be developed to fill identified gaps in the services, through the provision of information, referrals, case management, and followup consultations."

Note: The state describes this assurance in the state linkages and communication section, item 9.3b.

Linkages, as described in Sec. 675 (C) of the CSBG Act, occur with the: (1) use (of) funds available under this subtitle(D) to coordinate and establish linkages between governmental and other social services programs to assure the effective delivery of such services to low-income individuals. Linkages occur as local grantees prepare a community action plan every three years by conducting local needs assessments, describing the resources available in their respective areas, performing an analysis of services designed to identify gaps and duplication, and finally, describing the agency policies and procedures regarding coordination. Local grantees are working to expand their strategic planning beyond the 3-Year Needs Assessment conducted in their communities. The CAA coordinates with their local Workforce Services, school districts, Continua of Care and their local homeless coordinating committees to extend community involvement in their agencies, enhance integration of services, maximize impact, and deepen understanding of need. These linkages not only provide more effective service delivery, but also help agencies meet the proposed organizational standards addressing consumer input and involvement as well as strategic planning. Documentation of linkages is provided with the grant application to the State. The application identifies the other agencies and resources which coordinate and support the work program activities proposed.

Coordination of Eligible Entity Allocation 90 Percent Funds with Public/Private Resources

14.3c. 676(b)(3)(C) Describe how funds made available through grants made under 675C(a) will be coordinated with other public and private resources.

The State of Utah assures that CSBG funds are coordinated with other public and private resources primarily through monitoring activities, including the collection of Annual Report data and through the process of requiring and collecting comprehensive 3-Year Community Needs Assessments, in accordance with CSBG Act Section 676(b)(11). The State of Utah assures coordination of programs and effective use of funds through monitoring activities, including but not limited to the collection of the Annual Report each year. Annual Reports include detailed information on the public and private resources of local eligible entities and how resources are used. Additionally, eligible entities are required to provide to the State of Utah every...

**Note:** The description above is about eligible entity use of 90 percent funds to support these initiatives. States may also support these types of activities at the local level using State remainder/discretionary funds, allowable under Section 675C(b)(1)(F). In this State Plan, the State indicates funds allocated for these activities under item 7.

Local eligible entities use CSBG funds to meet family and community needs pertaining to poverty in their service regions, in accordance with the CSBG Act. The State of Utah will encourage eligible entities to make effective use of funds, including through the State initiative on intergenerational poverty, and through local initiatives related to fatherhood initiatives with the goal of strengthening families and encouraging parenting. Local eligible entities may also partner with other service providers, whose activities include initiatives relating to fatherhood, parenting, and strengthening families. Further, the State of Utah encourages and supports eligible entities in utilizing CSBG as base funds to leverage resources from other federal programs, such as Temporary Assistance for Needy Families (TANF), which directly supports initiatives pertaining to fatherhood, parenting, and strengthening families, in addition to other state, local, and private resources.

Each of the nine CAs will determine, in conjunction with the needs assessment, what food services and nutrition programs they will offer. The State will use the needs that are identified per agency and monitor each entity accordingly. The State will also use the annual report to verify that agencies are offering appropriate services in line with the identified needs in their area. Community Action Agencies provide a variety of food programs aimed at counteracting hunger and malnutrition for a diverse population of low-income individuals.

### State and Eligible Entity Coordination/linkages and Workforce Innovation and Opportunity Act Employment and Training Activities

14.5. 676(b)(5) Describe how the State will assure "that the state and eligible entities in the state will coordinate, and establish linkages between, governmental and other social services programs to assure the effective delivery of such services, and [describe] how the State and the eligible entities will coordinate the provision of employment and training activities, as defined in section 3 of the Workforce Innovation and Opportunity Act, in the state and in communities with entities providing activities through statewide and local workforce development systems under such Act."

### State Coordination/Linkages and Low-income Home Energy Assistance

14.6. 676(b)(6) Provide "an assurance that the state will ensure coordination between antipoverty programs in each community in the state, and ensure, where appropriate, that emergency energy crisis intervention programs under title XXVI (relating to low income home energy assistance) are conducted in such community."

**Note:** The state describes this assurance in the state linkages and communication section, items 9.2 and 9.5.

### Federal Investigations

14.7. 676(b)(7) Provide "an assurance that the state will permit and cooperate with Federal investigations undertaken in accordance with section 678D."

**Note:** The state addresses this assurance in the Fiscal Controls and Monitoring section, item 10.7.
Coordination with Faith-based Organizations, Charitable Groups, Community Organizations

14.9. 676(b)(9) Describe how the state will assure "that the state and eligible entities in the state will, to the maximum extent possible, coordinate programs with and form partnerships with other organizations serving low-income residents of the communities and members of the groups served by the state, including religious organizations, charitable groups, and community organizations."

*Note: The state describes this assurance in the state Linkages and Communication section, item 9.6.*

*Note: The state describes this assurance in the Eligible Entity Tripartite Board section, 11.3.*

The SCSO will review, as part of the monitoring process each fiscal year, the bylaws of the eligible entities and determine if there is a procedure describing how a qualified individual or organization can petition for representation on the board. This review occurs before the SCSO Program Specialist arrives at the organizations site. If the Program Specialist determines that the procedure is not in the bylaws then the SCSO will provide the agencies with the appropriate language and procedure, and require that the agency incorporate the procedures into their bylaws by the next board meeting (the agency will be permitted to use language that is appropriate for their agency). Within one week of the board meeting, the agency is required to submit the updated and approved bylaws to the appropriate SCSO staff for review and verification. SCSO will ensure that all eligible entities have a petitioning procedure in their bylaws. If, after being supplied with the appropriate language and procedure, the agency does not include such a procedure in its bylaws by the next board meeting, the SCSO will pursue corrective action or training and technical assistance to ensure that the agency included the proper petitioning procedures.

Eligible Entity Community Action Plans and Community Needs Assessments

14.11. 676(b)(11) Provide "an assurance that the state will secure from each eligible entity in the services block grant made under this subtitle for a program, a community action plan (which shall be submitted to the Secretary, at the request of the Secretary, with the State plan) that includes a community-needs assessment for the community served, which may be coordinated with community-needs assessments conducted for other programs."
