

Occupant Pre-Existing or Potential Health Condition Screening

Client Name

Address to be Weatherized

During the weatherization process your household will be exposed to materials and equipment that may pose a risk to their health and safety. Common weatherization measures may include work on: air sealing, insulation, windows, doors, HVAC and ventilation equipment. Known hazards are similar to those found in a construction environment such as exposure to power tools, excessive noise, dust, temporary odors, etc.

Below is a list of Known Risks associated with having your home Weatherized:

Materials w/ potential allergens:

- Spray Foams
- Caulking
- Adhesives
- Latex
- Duct mastic
- Plastics
- AC Refrigerants
- Insulations

Common Weatherization Risks:

- Exposure to Power Tools
- Disturbance of Mold
- Temporary debris
- Dust
- Noise
- Odors

Do you or any member of your household have any known, or suspected, health concerns that could be made worse by exposure to any of the materials or risks listed above?

No

Yes

If Yes, please describe your concerns below:

A member of our staff will discuss any concerns listed during the initial home assessment (Home Energy Audit) and will work with you to develop a plan to minimize risks.

If you have any health or safety concerns during the weatherization process please contact us:
