

Utah Weatherization Program Notice

Published Date 22 March 2020

Effective Date 22 March 2020

UWPN # 2020-010

Subject: General Policy Changes

Basis: D1.1.b

Purpose: Allow the Utah WAP to deviate from the Waiting List requirements

Scope: This Program Notice is applicable to all aspects of the program and applies to new applications, in production work, and client on the waiting list. This guidance is temporary until the current crisis is resolved.

In response to the current COVID 19 pandemic Utah WAP is temporarily amending the provisions of:

Section C1.10.i. to include the new language.

5. Clients that have been deemed COVID 19 High Risk maybe skipped over for service until such time as they are deemed Low Risk.

Responsibilities:

Local Agencies –

- Develop and apply COVID 19 Risk categories to clients of High , Medium and Low using CDC recommendations and Utah WAP suggested practices.
- Review proposed changes with agency staff and contractors as applicable
- Implement applicable changes on effective date.

State WAP Staff –

- Develop and issue Best Practices guidance for COVID 19 Risk categories
