Chapter 25
Services to Students and Youth

25.1 Authority: 34 CFR 361, Utah State Board of Education Special Education Rules paragraph III.J.2.i
(http://www.schools.utah.gov/sars/Laws/Rules.aspx)

25.2 Policy

Transition services shall be provided to eligible Students and Youth with disabilities to facilitate the transition from educational settings in high school to VR services oriented toward an employment outcome consistent with the student/youth’s primary employment factors. Individuals meeting the definition of Student with a Disability, both eligible and potentially eligible for VR services, may access Pre-Employment Transition Services (Pre-ETS). Services for eligible Students and Youth are governed under standard IPE’s as outlined below. Pre-ETS for Students Potentially Eligible are governed under sections 25.7 and 25.8.

The Individualized Plans for Employment (IPE’s) developed for eligible Students and Youth must include the specific transition services and supports needed to achieve the employment goal or project post-school employment goal [34 CFR 361.46 (a) (2) (ii)]. The eligible Student’s IPE goals, objectives, and services will be developed in coordination with the Student’s Individualized Education Plan (IEP) or 504 plan, as applicable [34 CFR 361.46 (d)]. The IPE will be developed and signed by the VR Counselor and Student prior to his/her graduation from high school or post high program [34 CFR 361.22 (a)(2)]. In the event that the IPE cannot be developed prior to the Student’s graduation, the reasons preventing IPE development will be documented in a case note. VR Counselors will serve as consultants and technical assistance experts to schools and will work to establish referral pathways for students with disabilities.

25.3 Youth with Disabilities [34 CFR 361.5(c)(58)]

USOR defines a youth with a disability as:
A. An individual with a disability;
B. Age 14 through 24 years

The definition of Youth with a Disability does not require participation in an education program. Clients meeting the criteria for Youth with a Disability include clients who also meet the definition of Student with a Disability.

25.4 Transition Services [34 CFR 361.5(c)(55)]

Transition Services are a coordinated set of activities that may be provided to an eligible Youth with a Disability. Transition services encompass Pre-ETS CSM 25.6 as well the broader range of VR Services that facilitate transition from school to post-secondary life.
Transition Services:

A. Are designed within an outcome-oriented process that promotes movement from school to post-school activities, including postsecondary education, vocational training, competitive integrated employment, supported employment, continuing and adult education, adult services, independent living, or community participation;
B. Are based upon the individual student's or youth's needs, taking into account the student's or youth's preferences and interests;
C. May include instruction, community experiences, the development of employment and other post-school adult living objectives, and, if appropriate, acquisition of daily living skills and functional vocational evaluation;
D. Promote or facilitate the achievement of the employment outcome identified in the student's or youth's individualized plan for employment; and
E. May include outreach to and engagement of the parents, or, as appropriate, the representative of such a student or youth with a disability.

During the Comprehensive Assessment of Rehabilitation Needs the VR Counselor and Student/Youth will discuss individual needs, identify available transition services, and include the necessary and appropriate services in the IPE.

25.5 Student with a Disability [34 CFR 361.5(c)(51)]

USOR defines a student with a disability as an individual who is:
A. age 14 through 21 years; and
B. eligible for and receiving special education or related services under the Individuals with Disabilities Education Act (IDEA); or considered an individual with a disability for purposes of section 504 of the Act; and
C. in an educational program including, but not limited to:
   Secondary education programs;
   i. Non-traditional or alternative secondary education programs, including home schooling;
   ii. Postsecondary education programs which result in a vocational or academic credential*; and
   iii. Other recognized educational programs, such as those offered through the juvenile justice system.

*Programs at least 100 hours or 1 month in length resulting in a specific occupational credential.

25.6 Students Potentially Eligible (SPE)

USOR may provide approved Pre-Employment Transition Services (Pre-ETS) to Students with Disabilities who are Potentially Eligible for VR Services. The list of approved Pre-ETS Programs for the Students who are Potentially Eligible may be found in Appendix B. Students Potentially Eligible and seeking Pre-ETS are not subject to the Financial Needs Assessment. The
documentation required for Students Potentially Eligible will be gathered by the Contract Pre-ETS providers and submitted to USOR.

Potentially Eligible Criteria
In order for an individual to receive Pre-ETS for the potentially eligible, the individual must meet the following criteria:

A. The individual is not a current applicant or client of VR services and has not been determined ineligible for VR services. See section 25.7.

B. The individual meets the definition of Student:
   i. Is aged 14 to 21
   ii. Has an educational goal as outlined in section 25.5

C. The individual has a disability and documentation of the disability in one of the following forms:
   i. IEP
   ii. 504 Plan
   iii. Medical record(s)
   iv. SSA award letter
   v. Letter from a qualified school professional* indicating the student has an IEP, or is regarded as an individual with a disability for 504.
   vi. USOR Pre-ETS referral form signed by a qualified school professional* (Form-77 see Appendix C)

*Qualified professionals include but are not limited to special education teacher, school counselor, Vice Principal, school nurse, etc; however, paraprofessionals and interns are not acceptable sources.

25.7 Students Potentially Eligible and Application for VR Services
VR Counselors should advise potentially eligible Students with Disabilities if and when it is appropriate to apply for VR services. If the Student is only in need of limited services available through Pre-ETS, then seeking services as a Student Potentially Eligible is an appropriate alternative to application for VR Services. However, if the VR Counselor identifies additional VR services which are likely needed for the Student’s success, the Student should be encouraged to apply for VR Services in order to access the comprehensive services available under an IPE.

A Student who is potentially eligible may decide to apply for VR services during the provision of a Pre-ETS program, or at the conclusion of a Pre-ETS program. A Student Potentially Eligible who has started a Pre-ETS program and applied for VR will be allowed to finish the remainder of the current Pre-ETS program but may not begin another Pre-ETS program as a SPE. There are two possible outcomes and processes for Students Potentially Eligible who apply for VR:

A. The SPE is found ineligible for VR services. In this event, no further services may be provided once the previously initiated Pre-ETS program has been completed.
B. The SPE is determined eligible for VR services. In this event, any Pre-ETS program initiated as a SPE may be completed; however, all future services will need to be included in an IPE prior to provision.

25.8 Pre-Employment Transition Services (Pre-ETS) 364.48(a)

Pre-ETS are a specific subset of Transition Services designed to provide Students with Disabilities with information, support and experiences that facilitate the exploration of their vocational interests, preferences, and abilities. Participation in Pre-ETS provides preparation for engagement in other transition services such as post-secondary training, permanent job placement services, supported employment, etc. Pre-ETS may be provided in individual or group settings.

Pre-Employment Transition Services are limited to:

A. Job Exploration Counseling:

Job Exploration Counseling may be provided in a classroom, community setting, or individual counseling session. Job Exploration Counseling may include the use of assessment to identify the Student’s vocational interests, abilities and opportunities. These activities are intended to provide the Student with information about in-demand occupations, career pathways, and local labor market information that applies to the Student’s skills, abilities and interests.

B. Work-Based Learning:

Work-Based Learning experiences may include in-school or after school opportunities or experience outside the traditional school setting that is provided in an integrated environment in the community. These experiences do not include individual instruction intended to mediate disability-related work issues. A Work Based Learning experience includes only the instruction provided to all employees with or without disabilities.

Note: Work Based Learning does not include services intended to secure long-term, permanent employment (e.g., JPP, SJB, SE, OJT, etc). If additional supports are required for an eligible Student with a Disability to be successful in a Work Based Learning experience, hourly job coaching may be added as a service to support the Work-Based Learning Experience. The job coaching service, which may be considered a Transition Service, is not a Pre-Employment Transition Service and must be added to a separate plan Amendment with non Pre-ETS funds when authorizing.

C. Counseling on Post-Secondary Opportunities:

Counseling on Post-Secondary Opportunities includes counseling on opportunities in comprehensive transition or postsecondary educational programs at institutions of higher education. Specific services may include Vocational Counseling and Guidance, academic assessments, assistance developing a course schedule, assistance to complete financial
aid forms, information and assistance researching scholarship opportunities.

D. Workplace Readiness Training:
Workplace Readiness Training refers to activities which promote the development of social skills and independent living skills. These skills include time management, communication skills, appropriate dress and hygiene, work appropriate behaviors, etc. These skills may be taught by an employer, a community rehabilitation program, school system or other similarly qualified provider in conjunction with a work based learning experience or as a standalone service.

E. Training on Self-Advocacy:
Self-Advocacy Training includes Peer Mentoring, Self-Determination Training, Independent Living Skills Instruction, and instruction in Person-Centered Planning.

Appendix 25-A contains a list, specific to Students who are eligible for VR services, of current Pre-ET Services, the providers, and approved fee schedules.

25.9 Services through Pre-ETS Contracts

USOR has developed contracts with community partners to provide Pre-ETS to both eligible and SPE. A list of the contract providers and a description of the Pre-ETS available through each contract may be found in Appendix 25B.

When referring a potentially eligible or eligible Student to one of the contract providers for Pre-ETS, the VR Counselor will complete the referral form (USOR Form-78) found in Appendix 25-D. If the Student is an eligible client in the VR program the counselor should coordinate with the Student to update his/her IPE upon notification of the Student's acceptance into a contracted Pre-Employment Transition Service.

25.10 Working with Students and Youth

A. Outreach and Collaboration
VR Counselors will attend IEP meetings when invited and schedule permitting to provide information and guidance as appropriate. There may be times when a VR staff member is not able to attend scheduled student-related meetings. Options for involvement beyond the physical presence of the VR staff member at the meeting could include the sharing of informational sheets and brochures, telephone conferencing, or other creative mechanisms developed at the local level.

B. Eligibility
VR Counselors should assess current functional limitations within the student’s academic, family, social and environmental circumstances which will influence the Student/Youth’s ability to obtain or maintain employment. This information may be found in documents and information provided by the school, the student, the student's family
and then if necessary, additional assessment information provided for or purchased by the VR Counselor.

C. Comprehensive Assessment
The IEP, school assessments, and consultation with the student's teachers and counselors is a valuable source of information and can be used to monitor progress and inform the development of the IPE. When this information is used to assist in making decisions about the vocational goal, services and service providers, it should be recorded in the client record.

D. Restoration
Students and Youth often participate in restoration activities provided by the Local Education Agency (LEA) as part of an IEP or 504 plan. To avoid duplication, VR Counselors will identify current restoration activities provided by the LEA in which the Student is participating prior to planning for VR funded restoration activities. If no services are being provided under an IEP or 504 plan, or if the services do not adequately address the disability, appropriate restoration service will be identified and added to the IPE.

E. Comparable Benefits
The LEA is responsible for service delivery while the Student with a Disability is in school; however, VR may coordinate with the school for the provision of Pre-ETS and Transition Services. When a service is necessary both for education and employment the responsibility will be negotiated between the representative of the school and the VR Counselor.

Agreements to share the cost of a given service will be fully explained in the IEP, the IPE, the ISP (Individual Service Plan) and any other written plan or program required by an involved agency.

VR counselors should consult the Policy for Interagency Assistive Technology Implementation in the State of Utah, Memorandum of Agreement prior to negotiating the purchase of Assistive Technology for Students or Youth with Disabilities.

F. Individual Plan for Employment
Students and Youth are developing their vocational maturity; therefore vocational goals of students in transition may change more often than those of adults. Counselors should employ flexible strategies to help the Student identify a permanent employment goal as early as reasonably possible.

While a Student, services on the IPE may be primarily provided by the LEA or other agencies. During this time, Vocational Counseling and Guidance may be added to the
IPE as a service which encompasses IEP collaboration and coordination of comparable benefits.

The IPE shall be written with participation of the eligible student and his or her guardian as soon as needed and agreed upon, and as early as 14 years of age. Students with Disabilities should have an IPE developed and signed prior to the student leaving the school system in order to ensure a seamless transition to vocational rehabilitation, unless otherwise documented based on individual circumstances.

25.11 Services to Groups of Students and Youth with Disabilities [34 CFR 361.49 (a)(7)]

Services to groups of Students and Youth are general transition services delivered in a group setting to benefit Students and Youth who may or may not have applied for VR services. Services to groups do not include individualized services and services directly related to an IPE Goal.

USOR’s provision of services to groups includes Job Readiness Workshops, Disability Mentoring Days, and Career Fairs as Transition Services to groups of Students and Youth with Disabilities who may not have yet applied or been determined eligible for vocational rehabilitation services.

A. Job Readiness Workshops

Job Readiness Workshops consist of a series of learning modules designed to provide Students and Youth with Disabilities with soft skills required for successful employment. These workshops are typically presented in the classroom and are conducted by USOR staff with support from school personnel.

B. Student and Business Mentoring Days

Student and Business Mentoring Days are employer site visits which provide Students with the opportunity to learn about specific industries and career pathways. These events are coordinated by USOR staff in collaboration with LEA’s and employers. Release forms may be required from Students prior to participation in the Student and Business Mentoring Day. USOR Staff will coordinate with the LEA’s and Students to ensure participation forms are obtained when necessary.

25.12 Pre-Employment Transition Coordination [34 CFR 361.48 (a)(4)]

Each District Office is responsible for outreach and coordination of Pre-ETS in their area. Outreach to Students occurs through partnering efforts with the LEA, Special Educators, School Counselors, and other Youth oriented providers. VR Counselors will present Welcome Sessions to Students, parents, and school personnel as outlined in the District MOU or at least once each school year. Welcome Sessions may be delivered online (USOR Welcome Session video), in group settings or in individual meetings.
District Offices will maintain liaisons with the LEA, local workforce development boards, one-stop centers, and employers to develop Student work opportunities throughout the school year including summer employment, apprenticeships and other short-term employment.

### BEST Social Skills Group

- **Marette Monson, LCSW**
- 180 East 4500 South, Suite 105 Holladay, UT 84117
- (801) 980-1343
- marette.monson@gmail.com

Classes held at Marette’s office in Holladay, UT

Group classes to teach appropriate social skills in the workplace. Topics include: how to accept recognition from employers, how to call off work appropriately, how to ask for a promotion, recognizing nonverbal cues and how this can be perceived in the workplace (body language), etc.

### Job Readiness Skills Training (Life Skills)

- approved service for CRPs
- statewide where available

Up to 20 hours individual or up to 15 days in a group setting may be approved by the VR Counselor (See CSM 2010-07). This includes Life Skills, Disability Adjustment and Work Adjustment Trainings. ($35/hour)

### Life Skills For Success

- Clinical Consultants: **Neal Hopkins**
- 2550 Washington Blvd Suite 200
- Ogden, UT 84401
- 801-621-8670

**Clinical Consultants (West Jordan)**
- 7601 S Redwood Rd
- West Jordan, UT 84084
- Ph. (801) 233-8670
- Fx. (801) 233-8682

Classes held at their offices in Ogden and West Jordan

An initial assessment is conducted for each of the students to identify strengths and areas for development. The program is taught utilizing both individual and group formats. Group sessions are offered twice a week and cover topics such as self-care/emotional intelligence, effective communication, goal setting/career planning, job search skills, interviewing, money management, appropriate work behaviors. Individual sessions provide an opportunity for staff to identify individual needs and concentrate on areas that need more concentration and skill gain. Cost- $26/hour group sessions; $75-individual. Total cost of program $837.00

### Life Skills Training/Personal Development

- Turning Point, (UVU) ms134 800 west University Parkway
- Orem, Utah 84058
- (801) 863 – 7580
- turningpoint@uvu.edu

Principally Utah county but available to anyone willing to travel to the office.

Managing Life Transitions I. Curriculum covers personal and professional development. Managing life transitions II covers relationship building including professional relationships.

### Social Steps

- Scenic View Academy
- Amber Wood
- (801) 226-2550
- amberw@svacademy.org

Principally Utah county but available to anyone willing to travel to the office.

Social Steps teaches 30 social skills lessons designed to help students navigate social barriers faced in the work environment and in life.
