

Utah Renewable ENERGY Business Summit

Prepare for Utah's emerging opportunities

Come learn the resources that are available for wind, solar, geothermal and energy efficiency businesses in Utah. Whether you are an established business looking to grow, a new business looking to get started, a service provider or a manufacturer seeking to connect with industry, this summit will provide information that will help you find that perfect opportunity in Utah!

Business, academic and nonprofit leaders, manufacturers, community officials and entrepreneurs should attend this summit to become educated about opportunities to grow in the renewable energy and energy-efficiency industries. Industry experts from the public, private, and nonprofit sectors will give customized presentations, lead discussions, and network with summit attendees.

The summit is a full day event with registration running from 7:30 AM to 8:30 AM, keynote address at 8:30 AM and general session beginning at 9:00 AM. After lunch the afternoon will be filled with nearly a dozen breakout sessions targeted to satisfying all. Both the morning and afternoon sessions will include networking opportunities. The whole event will wrap up at approximately 5:00 PM.

The summit is the place for business leaders and decision makers to prepare for Utah's emerging opportunities in the renewable energy industry. A few of the sessions you will enjoy:

Wind Component Manufacturing	Workforce Development & Incentives	Regulatory Environment	Find the Perfect Investor
Market opportunities, anatomy of a wind turbine and structure of the supply chain	Finding energy savvy trained employees, state incentives for expanding businesses and understanding Utah's current place in the market	Entering the markets of solar, geothermal and energy efficiency, advantages and barriers	Emerging companies learn how to: sharpen your business plan, find investors and go after the perfect target markets
