UTAH'S EMPLOYMENT SUMMARY: November 2024

SALT LAKE CITY (Dec. 20, 2024) — Utah's nonfarm payroll employment for November 2024 increased an estimated 1.8% across the past 12 months, with the state's economy adding a cumulative 30,900 jobs since November 2023. Utah's current job count stands at 1,782,700.

November's seasonally adjusted unemployment rate is estimated at 3.5%. Approximately 63,620 Utahns are unemployed. Utah's October unemployment rate is unrevised at 3.5%. The November national unemployment rate was up one-tenth of a percentage point at 4.2%.

"The state's economy continues to grow with expansion across most sectors," said Ben Crabb, chief economist with

the Utah Department of Workforce Services. "While job openings continue to trend downward, the unemployment rate has held steady for three months. Continued claims for unemployment insurance are down across age groups, industries and occupations. Despite some pockets of weakness, notably in retail trade and leisure and hospitality, the state's labor market is exhibiting continued resilience and stability as the year draws to an end."

Utah's November private sector employment recorded a year-over-year expansion of 1.3%, or a 19,200 job increase. Eight of the ten major private-sector industry groups posted net year-over-year job gains. The overall gains are led by education and health services (12,800 jobs), construction (6,900 jobs), and professional and business services (3,000 jobs). leisure and hospitality (-3,600 jobs) and trade, transportation and utilities (-3,300 jobs) experienced year-over-year job losses.

- Additional analysis and tables at https://jobs.utah.gov/wi/update/index.html
- County unemployment rates for November will post on or shortly after December 23, 2024, at https://jobs.utah.gov/wi/update/une/season.pdf
- December's employment information will be released at 7 a.m. on Friday, January 24, 2025.
- Statistics generated by the U.S. Bureau of Labor Statistics, Washington, D.C., modeled from monthly employer (employment) and household (unemployment) surveys.
- Listen to Chief Economist Ben Crabb's analysis of the November 2024 employment report here: soundcloud.com/utahdws/utah-employment-report-November-2024.

Note: Numbers have been left unrounded for convenience rather than to denote accuracy. Note: County employment estimates are assessed independently of the statewide estimate.

Note: Employment numbers are not seasonally adjusted. Therefore, comparisons of employment levels from one month to the next should not be used as job creation/loss estimates between those months. Seasonal factors could be the reason. For example, employment levels in September are usually higher than in August, as school employment resumes.
